CLARE ANGELIE T. DOLINO

IT Business Analyst · Project Management Specialist · Full-Stack Developer

Biliran, Philippines | clareangeliedolino@gmail.com | +63 964 963 3928 | linkedin.com/in/clare-angelie-taringting-dolino-4180823a3

PROFESSIONAL SUMMARY

Magna Cum Laude Information Systems graduate (Rank 1, GWA 1.32) with a rare combination of IT Business Analysis, Project Management, and Full-Stack Development experience. Personally led requirements gathering, produced operational process documentation, managed Agile/Scrum teams, and wrote the production code for the same institutional systems. Delivered 3 production-ready platforms at the Philippine Information Agency and led an award-winning capstone project at Biliran Province State University, consistently reducing manual workflow bottlenecks by 80%+ and achieving a 4.85/5.00 ISO/IEC 25010 usability score. A technical analyst who speaks both the language of stakeholders and development teams, equally capable of defining requirements and implementing them.

CORE COMPETENCIES

- Business Requirements Analysis (BRD · BPD · RTM)
- Agile / Scrum · Sprint Planning · Backlog Management
- Business Process Mapping & Documentation
- Stakeholder Engagement & Facilitation
- Systems Analysis & Design (draw.io · dbdiagram.io)
- SDLC Frameworks · Requirements Traceability
- Test Case Writing & UAT Support
- Defect & Issue Tracking · Risk & Dependency Monitoring
- Full-Stack Development (React · TypeScript · Node.js)
- Relational Database Design (PostgreSQL · MySQL · Supabase)
- Frontend Development (HTML5 · CSS3 · JavaScript · Tailwind)
- AI-Augmented Delivery (Gemini API · GitHub Copilot · Claude · Cursor)
- Cross-functional Team Coordination & Leadership
- Technical Documentation (Notion · Git · Process Flow Diagramming)

PROFESSIONAL EXPERIENCE

IT Business Analyst, Project Manager & Lead Developer (IT Intern Leader) *Jan 2026 – Apr 2026*

Philippine Information Agency – Region 8 · Tacloban City, Philippines

- Led end-to-end requirements gathering and analysis for 3 production-level institutional software systems, ensuring full alignment with project scope, timelines, and stakeholder expectations at every phase.
- Produced operational process documentation and functional specifications for each system, establishing the requirements baseline used throughout development, testing, and validation phases.
- Analyzed manual, spreadsheet-based financial workflows to identify process gaps; architected a dual-layer Finance Monitoring and disbursement-tracking platform that reduced reporting turnaround time by over 80%.
- Served as Scrum Team Leader for a 6-member intern development team; facilitated daily stand-ups, managed sprint backlogs, tracked delivery risks and dependencies, and cleared blockers to maintain schedule adherence.
- Personally implemented production-ready full-stack systems using React, TypeScript, Node.js, Supabase (PostgreSQL), and Google Cloud Run, bridging requirements documentation directly to technical execution.
- Monitored project deliverables, tracked issues from discovery through resolution, identified scope gaps and dependencies, and prepared status documentation for stakeholder review.
- Received the Proficiency Award from Philippine Information Agency Region 8 for technical leadership and delivery excellence.

Freelance Web Developer *May 2023 – Present*

Freelance · Philippines

- Architect and deliver end-to-end web applications for diverse clients, managing the full SDLC from initial requirements elicitation through to final deployment.
- Translate client requirements directly into functional, deployed web solutions using HTML, CSS, JavaScript, and React; serve as sole point of contact and accountability owner for each project.
- Apply AI-assisted tools (Google AI Studio, Claude, ChatGPT, Cursor, Lovable, Emergent, Manus) to accelerate implementation and improve client turnaround time.

Freelance Creative & Multimedia Specialist *2019 – Present*

Freelance · Philippines

- Design data-driven infographics, brand identities, and cross-platform multimedia assets for 10+ clients, translating complex data structures into high-impact visual formats.
- Manage creative projects from client briefing through iteration and final delivery, strengthening requirements-interpretation, stakeholder communication, and attention-to-detail skills.

KEY PROJECTS

Philippine Information Agency – Region 8 (Internship, 2026)

PIA R8 Finance Monitoring System *| Lead BA, Project Manager & Sole Full-Stack Developer*

Stack: JavaScript (ES6+), Node.js, Express.js, PostgreSQL (Supabase), HTML5, CSS3, SheetJS, Vercel / Cloud Run

- Gathered and documented operational requirements from finance stakeholders; designed system architecture replacing error-prone spreadsheet workflows with an automated digital dashboard.

- Architected a dual-layer persistence system with RESTful API endpoints and in-memory fallback for zero-downtime offline testing; reduced voucher verification and reporting cycles by 80%+ via chunked batch ingestion and sub-second multi-quarter fiscal aggregation.
- Engineered a weighted, context-aware auto-classification engine using lexical token matching to autonomously categorize ledger entries (PS vs. MOOE) and automated in-browser formatted Excel report generation.

TrackMyHours – Daily Time Record (DTR) Platform *| Project Manager, Lead Analyst & Lead Programmer*

Stack: TypeScript, React, Vite, Node.js, Supabase (PostgreSQL), IndexedDB, Google Gemini API, Tailwind CSS, face-api

- Owned full project documentation and coordinated a 6-person cross-functional Agile team through all SDLC phases (requirements definition, development, testing, UAT, and deployment).
- Engineered a zero-trust attendance pipeline (IP/Wi-Fi subnet detection, geofencing, facial liveness detection) eliminating proxy attendance; resolved browser 5MB localStorage crashes by designing an IndexedDB offline-first caching layer backed by Supabase cloud sync.
- Integrated Google Gemini 2.5/3.0 function calling for autonomous multi-format document analysis (.pdf, .docx, .xlsx) and automated DTR computation with batch PDF/Excel report generation.

Requisition & Issue Slip (RIS) / Inventory Portal *| Lead Analyst & Sole Full-Stack Developer*

Stack: TypeScript, React 18, Vite, Tailwind CSS, PostgreSQL, Supabase (Auth · Storage · Edge Functions · pg_cron), SheetJS

- Defined functional requirements, documented operational process workflows, and designed the full data model; coordinated with end-users to validate the system against institutional needs.
- Implemented multi-tier RBAC, immutable PostgreSQL audit trail for government compliance and COA auditability, Row Level Security (RLS), and a 24-hour automated disaster recovery pipeline via Supabase Edge Functions with pg_cron.

Biliran Province State University – Undergraduate Capstone Research Project (Apr 2025 – Dec 2025)

Centralized Document Management Information System (CDMIS)

| Project Leader, Lead Programmer & Head Research Writer

Stack: TypeScript, React 18, Tailwind CSS, Vite, MySQL, Context API, Google Cloud Run

- Directed a 6-member team through the full SDLC, executing requirements gathering, documentation, stakeholder alignment, development, and UAT for a unified web platform replacing fragmented paper-based records at the BiPSU Records and Archives Office.
- Achieved ISO/IEC 25010 software usability score of 4.85/5.00; reduced document retrieval and processing time by ~80% through sub-second Vite-optimized client routing, hierarchical RBAC, and an end-to-end document request state machine with immutable audit logging.

EDUCATION

BS in Information Systems *Graduated: May 2026*

Biliran Province State University

- Magna Cum Laude, Program Rank 1 of entire cohort, General Weighted Average (GWA): 1.32
- Full Academic Scholarship Recipient, Continuous President's Lister (3rd & 4th Year) · Dean's Lister (multiple semesters)
- Core Academic Focus: Systems Analysis & Design, Database Systems, Software Development Lifecycle (SDLC), Organizational Management and Concepts, Business Process Management, Graphics & Visual Computing, IS Project Management, and IS Management Strategy and Acquisition

AWARDS & RECOGNITION

Proficiency Awardee – Philippine Information Agency Region 8 (April 2026)

- Awarded for exceptional technical contribution, leadership, and system delivery during the regional agency internship deployment.

LANGUAGES

- English: Advanced / Highly Proficient
- Tagalog / Waray-Waray: Native speaker
- Conversational Chinese Mandarin & Korean: Basic conversational proficiency
- Italian & French: Basic / Beginner
